

Polyethylene

Stamylex™ 1026F

Animal based materials and BSE/TSE

We state that manufacturing this product, we incorporate small amounts of additives derived from fatty acids that can be of animal origin. Our additive suppliers guarantee that the manufacturing conditions exceed the requirements laid down in Regulation 1069/2009, 142/2011/EC and "Note for Guidance EMA/410/01 (rev. 3)".

Further, the plastic material is exposed to temperatures above 200 °C for several minutes during the extrusion step in the plastic manufacturing process. Under the described conditions any virus, bacteria or substance causing immunological diseases (TSE; BSE, CJD) is destroyed. We therefore state that our product is to be considered safe with respect to BSE and TSE transmissions.

Genetically modified organisms (GMO)

We certify that manufacturing this product, we do not use or intentionally add into it any additives derived from genetically modified organisms.

Halal certification

This product does not have an official Halal certification.

In this product we incorporate small amounts of additives of animal origin and therefore the suitability of this product cannot be guaranteed.

Kosher certification

This product does not have an official Kosher certification.

In this product we incorporate small amounts of additives of animal origin and therefore the suitability of this product cannot be guaranteed.

Palm oil, palm kernel oil and their derivatives

We state that manufacturing this product, we incorporate small amounts additives derived from fatty acids that can be of palm oil or palm kernel oil origin.
